As an organization, we pride ourselves in the work we do, and we remain accountable to the consumers who we produce services and supports for, as well as our partners and funders from across the province and beyond.

Over the past year WCAPD continued to develop our mission of striving towards an inclusive society in which persons with disabilities are equal and active citizens, and to carry out the mission, to work together with persons with disabilities and their families in facilitating social development and upliftment services whereby persons with disabilities take the lead in removing barriers and achieving independence, practically on a daily basis.

In rendering our services we remembered what we stand for:

- **Respect** – believing that all people are deserving of respect and dignity and everyone is to be treated with fairness and integrity
- **Inclusion** – embracing diversity and recognize the contribution of all individuals while including beneficiaries, volunteers, sponsors and staff in planning and decision-making
- **Empowerment** - striving towards independence and equality of all people and undertake to build human capacity on every level of our organization

Staff have taken these important core values to heart in service delivery.

Support and organizational development to mention a few of WCAPD services to APD Branches, staff and communities was driven by a dedicated staff and Management Committee. The successful execution of services in spite of financial constraints, economical challenges experienced by NPO’s and the overall social state of the country, depends on the cooperation between the Management Committee and staff. The clearly defined mission and vision statement, execution of the operational manual (policies and guidelines) places WCAPD in a good position to respond to future challenges.

Thys Blom

**We care!**

**Little known facts about us**

- Our social services are free of charge!
- We will come to you
- We have 2 venues available for hire
- We facilitate applications for vehicle rebates & beach permits

During the year under review, our staff supported other organisations, notably the Cape Town Society for the Blind by participating in their Run with a Vision event, and celebrating Mandela Day by pampering the elderly residents at Huis Ria Abel in Ysterplaat with hand massages and manicures.

These were so well-appreciated that we were invited to do so regularly!
A word from the
Directors

Elmien Grobbelaar - Western Cape

In 1937 a group of people had a dream...a vision. The first of its kind in South Africa. The
dream was to coordinate orthopaedic services to persons with disabilities but it was soon real-
ised that a far greater need lay in assisting persons to cope with social issues. 82 years later we
continue to build on this dream but we now take a holistic look at the person’s circumstances and
work with them towards their own independence.

“Independence is not measured by the quality of task we can perform without support, but by the quality of life we
can have with support.” Independent Living is having choice, making decisions, taking risks, taking responsibility,
having control over one’s own life. ~ EMPOWER: The Disability Resource Centre ~

All services that continue to be provided by WCAPD and APD Branches focus on ensuring that people with disabili-
ties function independently and inclusively within communities despite various barriers, whether financial, physical
or attitudinal. An overview of services rendered is included in the annual report, capturing highlights of our activi-
ties and our many worthy accomplishments.

WCAPD have been actively involved in Capacity Building programmes of employees, Management Committee Mem-
bers and volunteers of APD branches. Social Workers attended quarterly Group supervision sessions where rele-
vant practice-focused discussion opportunities with speakers offer staff the opportunity to expand skills. The group
supervision provides the Social Workers the opportunity to also exchange skills and strengthen networks within
APD. Management Committee trainings is to ensure that all volunteers serving APD Branches governs according
the organizational Constitution, policies and other laws. High turn over off Management Committee members
makes this training a continues and very needed process.

BrightStar Life Skills Programme was attended by the Middle Management Team of WCAPD. The programme aims
to develop personal and relationship skills to aid people to live their life in excellence and to be more effective lead-
ers. The positive outcome of Brightstar Lifeskills Programme is that staff members are not only equipped to work
as a team and provide an excellent service to APD Branches, but also received necessary life skills to be mature
role models to positively impact the lives of their team members and fellow colleagues.

A new and exciting project was launched by the Middle Management Team in November following the annual stra-
tegic planning session. UKULA – we grow - will be launched in November 2019 and APD branches will officially roll
out in March 2020. Ultimately, UKULA's goal is to continue to build the dream of 1937.

As the end of another financial year I am humbled about what the organization achieves with limited funding, re-
sources and staff. It stays an exciting time working for the organization and to continue supporting individuals and
families to reach their full potential.

Le-Ana van der Merwe - Southern Cape

Years ago, Mr Johan Joubert (previous director of WCAPD) had a dream to have a WCAPD
office in the Southern Cape. A part of this dream became a reality at the end of 2014 when
the Southern Cape office was established with 2 staff members, Le-Ana van der Merwe as
Regional Manager: Southern Cape and Madelie Voigt as Occupational therapist.

The region and the office grew in 5 years to the point where Le-Ana van der Merwe was pro-
moted to Provincial Director: Southern Cape and Madelie Voigt to Occupational therapy manager.

During 2018/19, Angeline van Rooy was appointed as Personal Assistant to the director.

The branches in the Southern Cape mostly represent rural and semi-rural areas with vast service delivery areas
which lead to high travel costs. Some branches have challenges to attract and employ social workers. This has an
immense impact on service rendering.

Another challenge is the difficulty to have active members from whom Management Committee members may be
elected. This leads to unconstitutional Management Committees that puts a strain on WCAPD to administer those
Branches, to assist with recruitment of members, and the training of completely new members and Management
Committees, in order to ensure that service delivery is not negatively impacted.

It has been a huge privilege to be a part of growth at our Branches and to experience various successes during
the financial year. This is proof that Branches, with the assistance of WCAPD, still have a fighting spirit to render
quality services to persons with disabilities and their families, even in the presence of financial difficulties, staff
shortages and a temporary absence of Management Committees.

It is a privilege to be a part of the WCAPD family!
Governance

As always a tremendous amount of time and effort this year went into monitoring and evaluating the governance at Branch level; coaching the administrative staff on correct financial procedures and human resource management, training of volunteers on Management Committees on the principles of good governance, strategic planning and sustainability.

Several Branches have been placed under partial or full administration during this time. An APD branch is placed under partial administration if any serious problems are experienced that may or may not have affected service delivery. This Association provides administrative support to the Management Committee to ensure corrective measures at the branch. In the event that there is no constituted Management Committee or no Management Committee members, when there are management and governance issues that negatively impact service delivery or which may result in the branch being at risk of losing NGO registration and/or subsidy, an APD branch is placed under full administration without any input from the (existing) Management Committee. Whether partial or full administration, it should not be regarded as a punishment. It must be seen as an opportunity of support from WCAPD to apply corrective measures and thus ensure sustainable service delivery to persons with disabilities within the community. During the past financial year the following branches were placed under either partial or full administration: Knysna APD, Oudtshoorn APD, Tembaletu Day Centre, West Coast APD, Witzenberg APD. Progress is generally very positive and some of the Branches will function independently again in the foreseeable future.

West Coast APD has been under our administration for a while now. Despite our best efforts to keep their doors open, it has not proved financially sustainable and for this reason our Management Committee decided to dissolve the Branch. We are currently negotiating the future of services to persons with disabilities in the area with the Department of Social Development and the community.

84 Branch visits in 90 days to 25 Branches | Management Committee training at 4 Branches
3 quarterly meetings with 33 staff & volunteers

Services

Social Development

One of the major services we provide to Branches is supervision of social workers. These sessions support the social workers in their interaction with clients and serve as a sounding board when they are uncertain as to a plan of action for a particular client. They also ensure that social workers follow good social work practice and abide by ethical standards of social worker. Individual supervision is provided to 25 social workers and 9 Auxiliary social workers, while group supervision is provided to all of these as well as 17 Community Development Workers not included in individual supervision. We are honour-bound to report any and all social workers who are found to be in breach of these principles to the South African Society for Social Service Professions.

Social workers are not trained specifically on disability and so it is essential that social workers receive ongoing training on all aspects of disability to ensure better service delivery to persons with disabilities. Quarterly group meetings are an opportunity for social workers to come together to discuss topics relevant to the profession and developments within the disability sector.

| 35 social workers | 11 auxiliary social workers |
| 7 Community Development Workers |

Day Care Centres

The 14 APD special care centres across the Western Cape province, constantly strives to provide a high quality service of care, stimulation & training to the 241 children making use of this service on a daily basis. These children does not qualify for mainstream or special schooling and is therefore a group who can easily fall through the cracks and ‘disappear’ in their community. From January to November 2018, WCAPD piloted a Toy Library Programme in partnership with the George APD branch. The aim of the programme was to reach children who were currently on the waiting list for entry to the special care centre and therefore unstimulated at home. Through this programme we provided training on various aspects of play & stimulation to the parents as well as a monthly play & stimulation session for the children. Parents and children also had access to some ‘take-away toys’ at the end of each session to use and play with at home.
These toys were then exchanged for something else the following month. A total of 11 children and their parents / carers benefited from the programme which was attended well and we received very positive feedback. WCAPD is now exploring how this programme can be reviewed and made available for implementation at other APD branches – which will probably form part of our new and exciting UKULA programme.

Furthermore, 3 APD branches in the Western Cape opened adult day care centres in which is a fresh, new approach of service delivery to this highly vulnerable group.

WCAPD provides guidance and support on programmes and operational procedures at these facilities as well as training with staff.

| 241 children in 14 Day care centres | Carer training at 7 Branches |

Protective workshops

Except for developmental social work services, protective workshops are our largest support platform for adults living with disabilities amongst the APD branches. Each workshop operates in a slightly different way and therefore the support provided from WCAPD also differs from branch to branch. Assistance and guidance are provided with programmes and operational procedures at the workshops and from time to time assistance and training is provided to staff and clients on the development of new products. In this way, persons with disabilities are trained and upskilled and Branches try to place them in permanent employment.

In February 2019 WCAPD initiated a Protective Workshop Forum for APD branches in the Southern Cape / Karoo region, which meets on a quarterly basis. This allows protective workshop staff from these branches to visit the various workshops in the region, share ideas, learn from each other and brainstorm challenges and possible solutions.

| 509 people in 16 protective workshops | 69 placed in learnerships |

Peer support

The Peer Support programme has proved to be an essential link in reaching persons with disabilities in communities, particularly those who are not known to us, and effectively extend the hands of the social workers. During the year under review, 1 additional group was established in Mossel Bay while existing groups were able to expand.

This project is no longer administered from our office but has been handed over to individual Branches to facilitate the community taking responsibility for the service in those areas. The programme now boasts 76 Peer Supporters in 10 areas, namely Beaufort West, Cape Town, George, Hawston, Knysna, Mossel Bay, Oudtshoorn, Saldanha & Vredenburg, Stellenbosch and Vredendal.

We were able to train Peer Supporters in George, Mossel Bay, Olifantsrivier & Overstrand on the 10 modules in the programme. Peer Supporters also receive training on awareness raising, legislation and public speaking. These are very popular as it enables persons with disabilities to become involved in their communities and to guide and support other persons with disabilities when it comes to knowing their rights and speaking for themselves.

76 Peer Supporters in 10 Branches made 2319 visits to 3029 persons with disabilities

Human resources

The new National Minimum Wage Act which came out in January 2019 will have a devastating effect on the sustainability of Branches, so we have networked and liaised with other organisations within the disability sector, the Department of Labour and the Department of Social Development, in an attempt to change the legislation. The new Act sees persons with disabilities in our workshops as employees, when they are actually beneficiaries of our services and should therefore be exempt from the hourly rate of R20.
Awareness Raising

Educating the public on disability and what it means to the individual and their family, as well as the legislation protecting the rights of persons with disabilities, is a vital part of our role.

We continue to work alongside corporates, sensitising their staff to see the individual rather than the disability and to recognise the diversity which exists within disability. We are proud to have formed relationships with the HR teams at several companies. Various talks and displays were held at ladies groups, civil organisations, University wellness days. We have begun a close relationship with the Department of Health’s Community Health Clinics, notably Parow CHC and Lady Michaelis Day hospital and will be holding regularly talks with their patients and staff.

NCPD has been wonderful in affording us the opportunity of many interviews on Radio Sonder Grense, Kaapse Kansel and Radio Tygerberg. We hosted a series of talks on CCFM on disability rights and continue to submit articles to the ImagineMag, an online arts & culture publication.

We were invited by NCPD to collaborate on compiling a resource package containing guidelines on the minimum standards for the reasonable accommodation of persons with hearing loss in the workplace, which is now complete and forms the first document of its kind.

Our social media is increasing steadily at a rate of approximately 30 people per month, providing an invaluable opportunity to engage both with the public and like-minded organisations. We use this vehicle to showcase awareness days on various disabilities as well as begin conversations around topical events from a disability perspective.

We are also proud to welcome our first Ambassador on board! Sally Brownie was a guest speaker at our gala event in September 2018 and has joined us as a volunteer to raise awareness in the elder care community.

5 Sensitisation sessions reached 80 people

Organisational development & support

Our 5-year strategic planning revealed the need for a training programme on different aspects of disability and aimed at clients, volunteers, staff, children in DCCs and the public. We have begun compiling the content and have spent several weeks in focussed writing so that the programme, named “Ukula”, may be launched at our 2019 Annual General Meeting.

Services to persons with intellectual impairments is fairly new to our basket of care and requires ongoing training. We were able to send 4 staff members for training on “Managing Challenging Behaviours” presented by the Western Cape Forum on Intellectual Disability which gave great insight into managing and dealing with those clients who display such behaviour. This training was in turn presented to social workers at Branches.

We invested substantially in the personal development of our staff by sending 13 members of staff as well as 9 Peer Supporters from Changeability, Mossel Bay APD, Overstrand APD and Oudtshoorn APD to a 3-day Brightstar Life Skills Training workshop. This training will be incorporated into the Ukula training as a basis on which to build.

Much work has been done during the year on developing services at Laingsburg APD. We were able to train their Management Committee and assist with the implementation of their strategic plan. The Branch conducted a needs assessment in the area which has revealed the need for a protective workshop. They have secured funding to establish such a facility where suitably assessed persons with disabilities will learn upholstery work. Western Cape APD will continue to provide guidance and supervisory support to this Branch.

Our occupational therapist attended an Introduction to Neurodevelopmental Therapy & the principles of a day care centre. We also paid a lot of attention to capacity building of both centre managers and staff as well as volunteers serving on Management Committees of APD programmes so as to ensure good, transparent and financial sustainable management of ourselves and Branches.

42 Training & capacity building with 179 people | 1 teambuilding for 1 day care centre
5 Strategic planning sessions at 5 Branches
The annual financial statements for the year 2018-2019 were presented at the Annual General Meeting (AGM) along with the auditor’s report for the year. It was pleasing to note that the audit report has not revealed any issues with the accounting practices and financial management at Western Cape Association for Persons with Disabilities.

**Income Statement**

The 2019 financial year net deficit amounted to R355,064 compared to a deficit of R556,361 during the 2018 financial year. The total income of the organisation decreased from R4,520,068 in 2018 to R4,471,436 in 2019 and total expenses decreased from R5,076,429 in 2018 to R4,826,500 in 2019.

The decrease in income was mainly attributable to the decrease in income from Trusts and Bequests.

Previously impaired loans were recovered with the transfer of the Bergivier APD property to Western Cape APD.

Our staff expense remains our largest expense and unfortunately we need to continue to reduce this cost. During the 2018 financial year staff expenses decreased by 7% and further decreased by 9% during the 2019 financial year.

**Bequests**

Trust Funds and bequests amounting to R976,749 were received during the year. (2018: R1,571,900)

**Balance Sheet**

**Conclusion**

Based on the 2019 results, the Western Cape Association for Persons with Disabilities, through its directors, management committee and staff, continue to take bold steps to protect the future of our organisation.

Western Cape APD has a strong balance sheet and maintains a sound financial footing.

Heartfelt thanks
The Association extends our sincere and grateful thanks to all those who assist us in our mission, be they volunteers, donors, staff, partner organisations, sponsors or friends. We could not have achieved all that we have during this year without the collaboration of partners, the support of sponsors and donors, the dedication and hard work from volunteers and staff alike, and the guidance of our leaders.
